

Your Path to Creating a Next-Generation Cyber Risk Advisory Service

Whether you're assessing overall risk or providing remediation advice, the more you know about a client, the better. Unfortunately, performing a manual evaluation can be incredibly time-consuming. Especially when you plan to grow your company and need to work at scale, you need to modernize.

Save hundreds of hours when it comes to gathering data, quantifying risk, and managing client risk with Centraleyes—a fully automated, single cutting-edge solution that streamlines third-party risk management at scale.

Why You Need Centraleyes

Implement & Onboard In Minutes

Manage your client relationships with a simple onboarding experience. Scale up with ease, spend less time gathering data and more time providing value to your clients.

Automated Remediation Planning

Empower your clients with tools that actively reduce their risk, measure compliance, and provide actionable next-steps for boosting their overall security posture.

Powerful Data & Reporting

Generate highly visual, executive-level reports to track progress, develop data benchmarks, highlight improvements, and support the overall decision-making process.

Measure Client Risk at scale

Easily analyze all of your clients through one cutting-edge, clear, visual dashboard. Assign intuitive risk scoring and utilize an automated risk register for clear prioritization.

What Can You Do With Centraleyes?

The Centraleyes platform enables consultants to deploy a next-generation advisory risk management service that can quantify, prioritize, and mitigate operational risks at scale. Centraleyes provides you with the tools needed to empower your clients to actively lower their own risk, meet compliance, and gain greater visibility into their risk exposure.

Centraleyes offers consultants a single, cutting-edge solution that allows you to complete risk assessments efficiently, quantify and manage inherent and residual risk, and enhance the decision-making process through actionable insights, data benchmarking, and executive-level reporting.
