

Add Next-Generation Cyber Risk Management to Your Service Offerings

One Platform to Manage All Your Clients

10x Faster, 10x Better

Differentiate your cybersecurity and cyber risk portfolio with the world's most advanced white-label risk management solution — Centraleyes.

Multi-Tenant Management

Leverage a single, unified dashboard for streamlined, responsive management and enhanced visibility into your entire client base

Smarter Reporting

Generate cutting-edge visual reports and analytics to provide detailed insights into your client's risk profile and empower more intelligent, strategic decisions

Evaluation at Scale

Manage your clients more efficiently and effectively through automated data collection, remediation planning, and smart mapping to multiple frameworks

The Challenge:

A Hypercompetitive Security Solution Market

The managed IT services market has never been more competitive.

If you intend to stand out in the cyber risk sector as a MSSP, you cannot simply be good. You must be exceptional. You must focus on providing clients with the most intuitive, seamless risk management possible.

That starts with finding the right software.

Centraleyes: Simplifying Cyber Risk Management Advisory Services for MSSPs

Centraleyes makes it easy for you to manage your entire clientbase using one, centralized platform. Powered by advanced artificial intelligence and automation, Centraleyes provides an intuitive, sophisticated white-label risk management solution for both you and your clients. Stand out from other service providers with streamlined onboarding, cutting-edge data visualization, executive-level reporting, risk scoring, and more.

Onboard New Companies in Minutes

Onboard new companies in minutes and leverage the platform's 50+ pre-loaded frameworks and automation capabilities. Rapidly apply intuitive risk scoring across multiple frameworks to all of your clients.

Save hundreds of hours onboarding new clients with a no-code deployment

Apply 50+ pre-loaded industry frameworks and standards

Quickly assess and score clients across multiple, relevant frameworks at scale

Automate and Orchestrate All the Manual Work

Centraleyes simplifies data collection and analysis. Save hundreds of hours by managing all of your assessments and reports for multiple third-parties in one cutting-edge, visual dashboard. Understand your client's risk posture in real-time, track progress, and minimize their exposure to risk with automatically generated remediation steps and insights.

Use Smart Questionnaires to map risk levels across multiple frameworks and industries

Ensure clients are continuously improving and empower clients with AI-powered remediation planning

Quantify, prioritize, and mitigate portfolio risks by creating and managing risk profiles through a centralized dashboard

Streamline Executive Level Reporting

Save resources using automated analysis and report tools that allow you to track progress over time. Maximize executive-level support with easily comprehensible reports that highlight cyber for each client. Break data down into visual reports that represent a client's current state of affairs, bring executives up to speed and streamline the decision making process.

Automatically generate highly-visual, detailed, and customizable reports for your clients

Convert technical risk into business risk with quantifiable metrics and industry benchmarks that show empirical data trends

Leverage a cutting-edge visual dashboard that's clear, easy to comprehend, and offers multiple layers of data

Key Benefits

Single-Screen Management

- Deploy Centraleyes to any client in just seconds using Smart Questionnaires.
- Intuitive risk scoring and executive-level reporting .
- High-level and granular management of each client via a centralized dashboard.

Compliance, Simplified

- Set custom risk targets and deadlines at the individual, departmental, or organizational level.
